How We Know That Christ Rose From the Dead

Christ arose from the dead?

Antiquarians say that the strongest evidence of an event of early times is a historical monument erected to establish it. Take our Fourth of July. What an ever-recurring proof it is of the Declaration of Independence put forth by our political fathers as the Magna Charta of our nation! We trace the history of this day from decade to decade until we reach the point when it first came to be. What then originated it, or what explanation shall be given for its observance at that time? There must be some cause adequate for such an effect, and we find it in that action of the continental congress.

Just so we have the first day of the week which we keep as one of rest and worship. All the people do not keep this day, but many do, who are called Christians. They are found in all nations and among all tongues. Moreover they have kept this day for nearly 2,000 years, and yet there was a time when it began to be. What originated it, what explains its coming into being? There must be a cause adequate for such an effect, and it is found in the resurrection of Jesus Christ from the dead on that day, This proof is all the stronger when we recall that the first Christians were Jews, and that until that time they letter from her announcing that she had always kept the seventh day of the week, and not the first. It must of her days with a man of high repute have been a revolutionary event indeed to produce a change like this.

But going further back, what ground had our Christian fathers for believing ly! And not when you remember that pearances of Jesus Christ were many. for he remained upon the earth for them the evidence not only of the superintendent of public instruction senses of sight and sound, but of will be asked to furnish additional touch, too.
